

N189

Meccanismo da incasso con movimento d'apertura frontale mediante sollevamento in due tempi. Realizzato con tubi in acciaio formati a freddo di qualità ad alta resistenza, verniciato con polvere epossidica in forno ad alta temperatura, in colore grigio. Il telaio portante è costituito da una fiancata in lamiera con fori predisposti per il fissaggio nel cassone.

ENG

Embeddable mechanism with a two movement opening system. It is realized with highlyresistant cold-rolled steel tube of top quality and is lacquered with grey epoxy resins in high temperature oven. In some models, the supporting frame is made up of a sheet metal side having suitable holes for the fixing in the chest.

ESP

Mecanismo de empotramiento con movimiento de apertura frontal mediante levantamiento en dos tiempos. Realizado con tubos en acero formados a frío de cualidad a alta resistencia, barnizado con polvo epoxídico en horno a alta temperatura, en color gris. El armazón portante está constituido en un costado por una plancha con foros predispuestos para la fijación de la caja.

FRA

Mécanisme encastrable pourvu d'un système d'ouverture à deux temps. Ce modèle est réalisé avec des tubes en acier forgés à froid à haute résistance de bonne qualité. Vernissage à la poudre époxy noire cuite au four à haute température. Le châssis porteur peut être remplacé par un côté en tôle ayant des trous aménagés pour le fixage dans le coffre

DEU

Versenkbare Mechanik zum Aufklappen von vorn durch Anheben in zwei Stufen. Aus kaltgeformten hochfesten Stahlrohren, mit Epoxidpulver bei hoher Temperatur einbrennlackiert, Farbe: grau. Es sind verschiedene Der tragende Rahmen besteht aus einem Seitenteil aus Blech mit Bohrungen zur Befestigung im Kasten
